Conquer and stand atop the highest mountain of the world on our Everest Expedition trip. Our Everest Expedition is preferably the most extreme mountaineering expedition in Nepal which takes adventure enthusiasts on a life altering journey to the Himalayan lands. This trip has been designed specifically to get climbers to the top of Mt. Everest and also get them back down safely. Moving through the stunning Everest region, we are to reach the base camp of Mt. Everest and then make an attempt to conquer the summit of Mt. Everest in a scheduled time period. Geographically and ecologically, the Everest region is beyond doubt one of the most diverse trekking and climbing region in Nepal. Offering unimaginable serene natural trails to walk and magnificent mountain vistas that can be enjoyed by trekkers and climbers who have ventured inside this spectacular region, makes this expedition a worthwhile endeavor in itself. Fluttering Buddhist prayer flags, vibrant pathways, high suspension bridges and the affectionate local Sherpa people are some of the noteworthy highlights of this expedition. But the first and foremost objective to reach the pinnacle of Mt. Everest is undoubtedly the most important and sought-after goals of this entire voyage. Taking off with a scenic mountain flight to Lukla, we enter the fascinating Everest region or as locals call it "the Khumbu valley". Proceeding on, we now head towards Namche Bazaar which is a beautifully situated Sherpa town consisting of many touristic lodges, cafes, bars and markets. Seemingly, on the tenth day of our trek, we reach the EBC and then start preparing for our heart thrashing climb to the top of the highest mountain in the world, Mt. Everest. As per our schedule, we pass through Camp I, II, III and IV before launching ourselves for a final push to reach the summit where we shall take a congratulatory photo of ourselves standing at the summit. Later on, we retrace our steps back all the way down to the base camp. Furthermore, we now have to leave the extravagant landscape of EBC so you should take some last moment pictures/selfies as we descend down to Pangboche village. Later from Pangboche, we head to Namche Bazaar and then after to Lukla where we shall celebrate our accomplishments with some much-needed beer & sleep. It is highly recommended that any person who wants to summit the world's highest mountain must possess an incredible amount of

enduring capacity to cope with the harsh environment of such high places. Hence, we suggest training your body at least 4 months prior to your expedition can be very beneficial for the success of your expedition. Contact, **Himalayan Holyland Treks & Expedition** A team today and we shall offer you with exceptionally qualified climbing staffs who have all the required information and experience regarding the climb to summit Mt. Everest.

Itinerary

Day 01:

Arrival in Kathmandu(1350) and transfer to hotel.

Day 02:

Free Day in Kathmandu:

Sightseeing and Preparation for Everest Expedition. While the leader attends a formal briefing in the Ministry of Tourism, you will explore the fascinating city of Kathmandu. Take rest, familiarize, and make a sightseeing tour to Kathmandu's World Heritage Sites. We make a guided tour to some of UNESCO World Heritage Sites in the Kathmandu valley: Kathmandu Durbar Square, Pashupatinath, Swayambhu, and Boudhnath. The day will also be for finalizing official procedure and other necessary arrangements. You will be also briefed on the nature of expedition, equipment and team composition. You can also make your last minute buying of personal items as you will be flying to the Himalayas tomorrow. In the late afternoon, the leader will check everyone's equipment, as Kathmandu is the last opportunity to buy anything missing. You will also get introduced with fellow expedition members and guides.

Day 03:

Fly to Lukla(2700m/20 min) Trek to Monjo-walk about 04 hrs.

An early morning scenic flight to Lukla. The mountain flight over to Lukla is one of the most beautiful air routes in the world culminating in a dramatic landing on a hillside surrounded by high mountains peaks. In Lukla, we will meet our camp staff and porters. After meeting our other crew members and with some packing and arrangements, we start our trek through the prosperous village of Lukla until we reach Manjo.

Day 04:

Trek to Namche(3450)-walk about 5 hrs.

Day 05:

Acclimatization/Exploration in Namche Bazar.

Day 09:

Trek To Lobuche(4900m)-walk about 04 hrs.

Day 10:

Trek to Base Camp-walk about 05 hrs.

Contouring along the valley-side and looking down on the Khumbu Glacier, follow a reasonable trail to Gorak Shep. This was the site of the base camp in 1953 and now consists of a few small tea houses. Leaving Gorak Shep, the trail leads on to the moraine of the Khumbu Glacier and becomes quite vague, weaving between mounds of rubble and eventually reaching base camp near the foot of the Khumbu Icefall. This will be our home for the next six weeks.
